

Neeraj Kanoi

Full-Stack Engineer

I am a passionate Full-Stack Engineer. I have relevant skills to work on both Front-end and Back-end Technologies. I have hands-on experience in MERN Stack and also have knowledge in Java and SpringBoot. I know APIs and can write and integrate API's in any Web Application. I recently got certified in AWS as well.

WORK EXPERIENCE

Associate Engineer

Brillio Technologies Pvt Ltd.

11/2022 - Present

Bengaluru

TECH USED: REACT.JS, JAVA, SPRING BOOT, HTML, CSS, JAVASCRIPT, MYSQL, AWS

Accomplished Tasks

- Developed front-end and back-end features of a Video platform. Worked on the front-end features with React and back-end features with Java and SpringBoot for the projects and developed features like playlists, favorites, automatic login, premium subscriptions, etc. Worked on MySQL for database operations.
- Wrote effective APIs and integrated the APIs
- Worked on tickets, resolving technical issues and bugs in front-end as well as back-end.
- Completed AWS Cloud Practitioner Certification - [Certificate](#)

Developer Intern

Testright Nanosystems Pvt. Ltd. [🔗](#)

04/2021 - 07/2021

Achievements/Tasks

- Designed, and worked on the front-end of the websites. Developed and deployed various new features on the websites mostly using Javascript. Integrated the website dynamically with Google Sheets using scripting. Small back-end features were implemented using basic PHP and Javascript. <https://www.testright.in/>

PROJECTS

Online Event Marketing WebApp [🔗](#)

- A Node.js web-app to help event managers list and market their events on scale and help users get notified about upcoming events through emails. Developed a secure authentication system, used JWT Tokens. To perform CRUD operations I have used MongoDB database.
- **Tech Used:** React.js, Express.js, Node.js, MongoDB, Git, Html, Css, Javascript

Automation of Hospital Management System [🔗](#)

- A full-fledged web application for automation of daily processes in a Hospital system. Integrated **Chatbot** and deployed on **Docker**.

Doraemon Game Made with Javascript [🔗](#)

- [Website](#)

To-Do app using React.js that uses local storage [🔗](#)

SKILLS

C/C++

Java

Javascript

Node.js

REST API

HTML

CSS

MongoDB

MySQL

Github

Bootstrap

React.js

DSA

Spring

AWS
